

The Resort is embedded in Ustica's beautiful green countryside set against the deep blue of the surrounding sea and lays less than 2 miles from the island's main square.

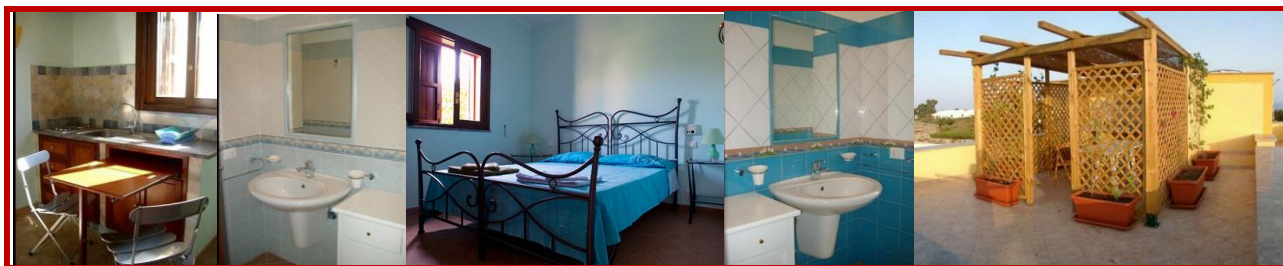

You will experience that Ustica is not only a diver's paradise but also an island where you can rediscover the pleasure of spending time together.

Accommodation includes independent fully equipped single and twin roomed mini apartments.

Single room apartments each have air-conditioning, a small open plan kitchen and a private bathroom. All lead on to a spacious shared terrace equipped with umbrellas, chairs and sun beds that look on to a small exclusive Mediterranean garden. Other apartments equally equipped have rather a well-sized private terrace with panoramic view, a private garden or a patio equipped with cooking facilities and barbecue.

The two-roomed apartments each have an open plan kitchen, private bathroom, ceiling ventilators and either a private garden or patio equipped with outside cooking facilities.

Oleandro has a well-sized private terrace with a wonderful panoramic view of the island.

Bougainville is perhaps the resort's most versatile apartment: both the bedroom and lounge can be accessed from outside and communicate internally with the kitchenette and bathroom. It has also an ample terrace, featuring a panoramic view of the island, equipped with external shower, gazebo and outside cooking facilities.

Ibiscus has a private garden, outside shower and a patio equipped with cooking facilities and barbecue.
